

The most obvious achievement of these people is that they created their own lives.
Mihaly Csikszentmihalyi, Creativity: Flow and the Psychology of Discovery and Invention

“Celebrating Tenure at Georgia Tech”
Enhancing Meaningful Creative Challenges: EMC²
November 2-4 | Chateau Elan | Braselton, Georgia

OBJECTIVES

- To consider the essential role that personal development plays in leadership behaviors that contribute to co-creating a culture in which we can all thrive
- To recognize and celebrate participants’ achievements
- To facilitate connections/relationships across GT among tenured faculty
- To provide an opportunity for faculty to intentionally pause, and strategically consider the next five-eight year period of their careers
- To invite the opportunity to consider both the scale and meaning of what it means to be an educator and researcher (by your own estimation) that comes with the freedom from successfully crossing this important milestone offers.
