Scheller College of Business

Undergraduate Research Assistantship with Compensation
MGT 2698 || MGT 4698
(Fr & So) (Jr & Sr)

All CoB students receiving compensation for participating in Undergraduate Research are eligible to receive audit credit for their research assistance. Audit credit does not count towards BSM or BSBA degrees but places a designation on the transcript that the student participated in research, which may be of interest to future employers and graduate schools. Compensation for the research is arranged by the sponsoring professor.

CoB students with paid business-related research assistantships are eligible to enroll in up to 12 audit credits, receiving one credit of MGT 2698 or 4698 for every 45 hours of research assistance provided during the semester. Credit hours will be determined by the sponsoring professor. The research assistantship may be part-time or full-time. Multiple registrations for this course are allowed. Students must be in good standing.

Directions:

1. With the sponsoring faculty member, complete all sections of this form.

2. Submit this form to the Undergraduate Programs Office, CoB room 322, no later than one week prior to Phase 2 registration. If the course is approved, an online permit will be issued to the student, allowing registration via OSCAR. It is the student’s responsibility to enroll in the correct number of credits via OSCAR. The default for the course is one credit.

Student Information:

Student name: ________________________________________________________________

Student GT ID number: _________________________________________________________

Student GT email address: ______________________________________________________

Student phone number: _________________________________________________________

Current overall GPA: __________________________________________________________
