Stern School of Business, New York University</b> , NY, USA  Ph.D. in Finance, May 2020 <i>Dissertation Title: "Essays in Business Lending"</i>  <b>Birla Institute of Technology &amp; Science, Pilani</b> , India  MSc.(Hons.), Economics, May 2014 <ul style="list-style-type: none"> <li>• <i>Distinction</i></li> </ul> B.E.(Hons.), Electrical and Electronics Engineering, May 2014 <ul style="list-style-type: none"> <li>• <i>Specialization: Microelectronic Circuits</i></li> <li>• <i>Distinction</i></li> </ul>	
RESEARCH INTERESTS	Financial Intermediation, Corporate Finance	
WORKING PAPERS	<ol style="list-style-type: none"> <li>1. <b>How Collateral Affects Small Business Lending: The Role of Lender Specialization</b>, <i>Job Market Paper</i>.  I study the role of collateral on small business credit access in the aftermath of the 2008 financial crisis. I construct a novel, loan-level dataset covering all collateralized small business lending in Texas from 2002-2016 and link it to the U.S. Census of Establishments. Using textual analysis, I quantify whether a lender is specialized in a borrower's collateral by comparing the collateral pledged by the borrower to the lender's collateral portfolio. I show that, post 2008, lenders reduced credit supply by focusing on borrowers that pledged collateral in which the lender specialized. This result holds when comparing lending to the <i>same</i> borrower from different lenders, and when comparing lending by the <i>same</i> lender to different borrowers. A 10% higher specialization in borrower collateral increases lending to the same firm by 1.2%. Abstracting from general equilibrium effects, if firms switched to lenders with the highest specialization in their collateral, aggregate lending would increase by 14.8%. Furthermore, firms borrowing from lenders with greater specialization in the borrower's collateral see a larger growth in employment after 2008. I identify the lender's informational advantage in the posted collateral to be the mechanism driving lender specialization. Finally, I show that firms with collateral more frequently accepted by lenders in the economy find it easier to switch lenders. In sum, my paper shows that borrowing from specialized lenders increases access to credit and employment during a financial crisis.</li> </ol>	

## 2. **The Rise of Finance Companies and FinTech Lenders in Small Business Lending**, *(with Philipp Schnabl)*.

We document that finance companies and FinTech Lenders increased lending to small businesses after the 2008 financial crisis. We show that most of the increase substituted for a reduction in lending by banks. In counties where banks had a larger market share before the crisis, finance companies and FinTech lenders increased their lending more. By 2016, the increase in finance company and FinTech lending almost perfectly offset the decrease in bank lending. We control for firms' credit demand by examining lending by different lenders to the same firm, by comparing firms within the same narrow industry, and by comparing firms pledging the same collateral. Consistent with the substitution of bank lending with finance company and FinTech lending, we find limited long-term effects on employment, wages, new business creation, and business expansion. Our results show that finance companies and FinTech lenders are major suppliers of credit to small businesses and played an important role in the recovery from the 2008 financial crisis.

## 3. **Nonbank Lending and Credit Cyclicalit**y, *(with Quirin Fleckenstein, Germán Gutiérrez, and Sebastian Hillenbrand)*

We show that cyclicalit

### PRESENTATIONS (INCLUDING SCHEDULED)

**2020** - Rochester (Simon), Georgia Tech (Scheller), University of Florida (Warrington), University of Houston (Bauer), Southern Methodist University (Cox), Indiana University (Kelley), Federal Reserve Bank of New York, Federal Reserve Board (Financial Structures, Financial Intermediaries Analysis), Johns Hopkins University (Carey), Indian School of Business, Texas A&M Young Scholars Finance Consortium<sup>c</sup>, Showcasing Women in Finance Conference<sup>c</sup>, NYU Stern (Faculty Insights Series), Federal Reserve Board (Macroprudential Policy Analysis, *scheduled*)

**2019** - NYU Stern Finance (x2), Federal Reserve Bank of New York (x2)

<sup>c</sup> - Postponed due to COVID-19

### AWARDS AND FELLOWSHIPS

- Best Student Paper, Young Scholars Finance Consortium, 2020
- Lawrence G. Goldberg Prize in Financial Intermediation for the Best Dissertation in Financial Intermediation at NYU Stern, 2020
- Summer Dissertation Internship, Federal Reserve Bank of New York, 2019
- American Finance Association, Travel Grant, 2019
- Marcus Nadler Fellowship, NYU Stern, 2018-2019
- NYU Stern Teaching Commendation, 2017
- NYU Stern Doctoral Fellowship, NYU Stern, 2014-2018
